

January 2019

Dear 5th Grade Families,

Attached is a permission slip for your student to see an in-school presentation about the North American Cultural Areas. This program introduces and explains the culture areas or regions of North America. It shows how the Native People used their environment to survive and how each culture area is different based on what they had to use in each region. Our presenter and Lake Orion resident, Gary Ghareeb, will cover stone tools, plant materials, shells and animal parts that were used; examples from many different culture areas will be represented. This program follows the Michigan fifth grade social studies curriculum. Each fifth-grade class will get to see the presentation. The cost of the program is \$6.00 per student.

Below is the schedule for the day.
